Issue: September 1999

Computer Software Copyrights

The Motorola products described in this manual may include copyrighted Motorola computer programs stored in semiconductor memories or other media. Laws in the United States and other countries preserve for Motorola certain exclusive rights for copyrighted computer programs, including the exclusive right to copy or reproduce in any form, the copyrighted computer program. Accordingly, any copyrighted Motorola computer programs contained in the Motorola products described in this manual may not be copied or reproduced in any manner without the express written permission of Motorola. Furthermore, the purchase of Motorola products shall not be deemed to grant, either directly or by implication, estoppel or otherwise, any license under the copyrights, patents or patent applications of Motorola, except for the normal non-exclusive royalty-free license to use that arises by operation of law in the sale of a product.

1.1 System Installation Requirements..... 2-1
1.2 Installation Procedure 2-1
1.3 Starting the Application 2-2

Chapter 1

CUSTOMER PROGRAMMING SOFTWARE (CPS) INSTALLATION

1.0 CPS Installation Instructions for Windows 95 and Windows 98

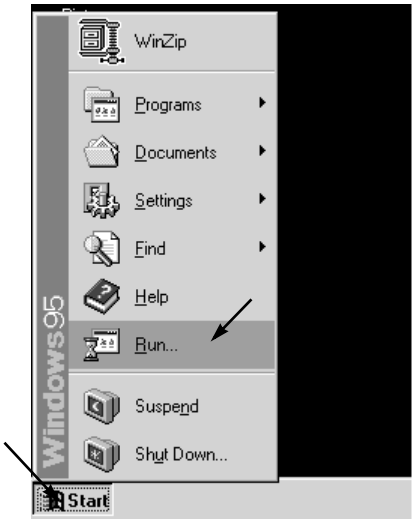

Please read the instructions below before proceeding to the on-line installation package for the CPS. Also be sure to read carefully all on-screen instructions during the installation.

1.1 System Installation Requirements

	Minimum	Suggested
RAM	8 MB	16 MB
Free Hard-Drive Space	10 MB	16 MB
Display Type	VGA (16 colors)	SVGA (256 colors)
CPU	486	Pentium 133MHz

1.2 Installation Procedure

1. Please ensure that you have the **Customer Programming Software** installation CD.
2. Exit all programs that are currently running.
3. Insert the CD into the CD drive (eg. drive D).
4. Click the **Start** button on your desktop. Then click **Run**.

5. You will see the **Run** box.

6. Type D:SETUP.EXE in the **Open** field of the **Run** Window (this example assumes that your CD drive is drive D; please substitute the appropriate drive letter for your system). Click the **OK** button to proceed.
7. The setup package will install the **CPS**. Please follow the on-line installation instructions.

Congratulations! You have completed the installation of the **Customer Programming Software**.

1.3 Starting the Application

To start the **Customer Programming Software**

1. Click on the **Start** button.
2. Select **Programs -> Motorola ->Entry Level Professional Radio -> Entry Level Professional Radio CPS (ver-#)**, where Ver-# refers to the CPS's version number.

Chapter 2

TUNER INSTALLATION

1.0 Tuner Installation Instructions for Windows 95 and Windows 98

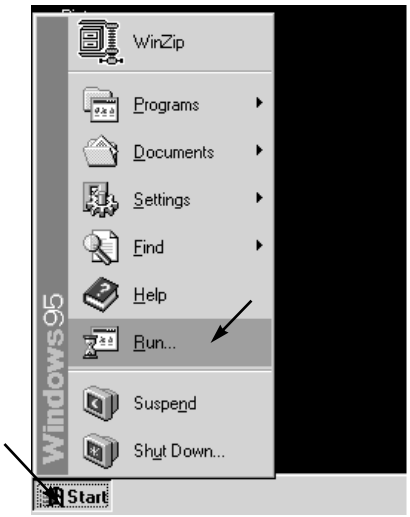

Please read the instructions below before proceeding to the on-line installation package for the Tuner Software. Also be sure to read carefully all on-screen instructions during the installation.

1.1 System Installation Requirements

	Minimum	Suggested
RAM	8 MB	16 MB
Free Hard-Drive Space	10 MB	16 MB
Display Type	VGA (16 colors)	SVGA (256 colors)
CPU	486	Pentium 133MHz

1.2 Installation Procedure

1. Please ensure that you have the **P Series Software** installation CD.
2. Exit all programs that are currently running.
3. Insert the CD into the CD drive (eg. drive D).
4. Click the **Start** button on your desktop. Then click **Run**.

5. You will see the **Run** box.

6. Type D:SETUP.EXE in the **Open** field of the **Run** Window (this example assumes that your CD drive is drive D; please substitute the appropriate drive letter for your system). Click the **OK** button to proceed.
